

# Alphabet Soup - Special Program Headers

The district has created a series of color-coded, district-defined special program indicators that display to alert end-users to Special Programs in which the student participates. These indicators generally correspond to TEA special programs or legal requirements and are not defined to designate participation in clubs or extracurricular activities. Not all staff can see all the headers listed below. The headers available to staff are based on their security role/menu access in TEAMS. Additionally, new indicators may be headed and other headers may expire o

A sample header with Special Program indicators and a Special Program alert is shown below.

District-defined Special Program indicators

Special Program alert

Use the Student Header Icon Association entry point to select these icons for display in the header above Student entry points.
