### **Beaumont ISD 1-to-1 Pilot Program Handbook**

In an effort to provide our students and teachers with the tools they need to prepare for the future, Beaumont ISD has implemented a 1-to-1 Technology Initiative for students in the 9th-12th grade for the REMAINING 2020 school year. We hope that you share our excitement of being able to offer the Chromebook as an instructional resource to Beaumont ISD students. The impact on teaching and learning will be enormous. Our students will gain access to digital tools, information, and resources and will be able to use this information to enhance learning. In addition, their technology skills will increase and better prepare them for higher education and the workforce. As with any new initiative, there will be constant assessment and necessary changes to make this project work to the maximum benefit of our students. We are committed to that goal.

This Agreement represents an outline of the Chromebook policies and procedures. By signing this Agreement, students and parents/guardians agree to follow these policies and procedures. Students and parents/guardians are encouraged to read and understand these policies and procedures prior to signing this Agreement.

Access to Beaumont ISD technology is a privilege, not a right. Violating the letter or spirit of the regulations may be cause to deny a student access to said technology, and may result in more serious disciplinary action(s) and/or financial obligation.

#### **1. CHROMEBOOK SPECIFICATIONS**

Students will receive a DELL 3100 Chromebook, charger, internet device and case.

#### **2. ISSUING OF CHROMEBOOKS**

Chromebooks will be distributed during the spring. Please read all paperwork carefully and make sure that you understand all documents before signing.

Chromebooks will be collected at the end of each school year for maintenance and cleaning over the summer.

#### **3. Technology Usage Fee**

Students will pay \$30 (\$15 for the 2019 - 2020 school year) a year for a technology usage fee. This is a one-time nonrefundable fee to help sustain the program for the future. The fee also helps cover the cost of cleaning and preparing the chromebooks for the next school year. If a student does not pay, they will not receive a device to take home, and instead use a loaner device at school. If there are financial hardships in the household, please contact the school counselor or school administration to discuss the fee.

## 4. TAKING CARE OF YOUR CHROMEBOOK

Students are responsible for the care of the Chromebook they have been issued by the school. Chromebooks that are broken or fail to work properly must be taken to the campus technician immediately.

**Never try to repair the Chromebook yourself or have someone outside the district work on it. This could void the warranty and cause you to incur additional charges.**

### 4a. General Precautions

- Comes to school charged everyday
- Stays in the case
- Charger remains at home or in backpack
- Device should be restarted every Friday (Update Friday, should be announced every Friday, students can do the restart during the announcements)
- No food or drink is allowed next to your Chromebook. Spills can incur costly repairs.
- Cords, cable, and removable storage must be inserted and removed carefully.
- Students should NEVER carry their Chromebooks while the screen is open. **Never carry your Chromebook by the screen.**
- Chromebooks should be closed and turned off when not in use to conserve battery life.
- **Chromebooks must remain free of any writing, stickers, or drawing that are not the property of Beaumont ISD.**
- Chromebooks must never be left unsupervised **ANYWHERE.**
- Students are responsible for keeping their Chromebook battery charged for school. Students who come to class unprepared without their charged Chromebook will face disciplinary action just as they would for not bringing their homework or textbook to class.
- Chromebooks should only be used by student that it was assigned to.
- Teachers will determine the use of the Chromebooks in the classroom. Misuse of the Chromebooks during a given assignment will result in a classroom consequence.
- Follow the Beaumont ISD Acceptable Use Policy when using the Internet at home or at school.
- Any inappropriate or careless use of a Chromebook should be reported to a teacher or other staff member immediately.
- Students must immediately report theft or damage to a teacher. They will then go to the campus technician for further instructions.
- Do not remove programs or files from the Chromebooks.
- Honor your family's values when using the Internet. Parents/guardians should discuss family values and expectations regarding the use of the Internet at home. While Beaumont ISD has the right and ability to filter and view browsing history while off campus, parents/guardians are responsible for supervising their child's use of the Chromebook at home.
- Do not give out personal information when using the Internet.

- The school's Internet connection should be used only for research or information gathering that is directly related to academic assignments or extracurricular projects supervised by Beaumont ISD faculty.
- During school hours, playing games on Chromebooks is not allowed unless the game is directly related to a school assignment or activity, and permission is given from the student's teacher.
- Email (or any other computer communication) should be used only for legitimate and responsible communication between students, faculty, and the outside world. Rude, abusive, threatening, or otherwise inappropriate language is not permitted and will not be tolerated.
- Students may access only those files that belong to them or which they are certain they have permission to use.
- Students are expected to follow all copyright laws.
- Files stored within the school computer systems (both Chromebook and file servers) should be limited to those relating to formal school courses or activities. Games, commercial software, or graphic files that are not for a school project or formal activity should not be stored on school computer systems.
- Students are expected to only access teacher-authorized sites at the appropriate times.
- The Beaumont ISD Technology Department makes every effort to block obscene, pornographic, or otherwise offensive material. If you inadvertently access a web site which contains obscene, pornographic, or otherwise offensive material, notify a teacher or an administrator immediately so that such websites can be blocked, and you will not be disciplined for breaking the Acceptable Use Policy or Student Code of Conduct. **This is not a request – it is a responsibility.**
- Students should always protect their user account by logging off when not at their Chromebook.
- Students should never attempt to “hack” into any computer system or engage in unauthorized use of the network.
- All users must agree to never maliciously damage or steal school computer equipment or electronic data.
- The students may only use the email account and chat software that is set up by Beaumont ISD.

#### *4b. Carrying*

- The Chromebooks should be closed and in their protective cases while being carried at all times.

#### *4c. Screen Care*

The Chromebook screens can be damaged if subjected to rough treatment. The screens are particularly sensitive to damage from excessive pressure on the screen. To avoid damage and costly repair fees, please adhere to the following rules:

- Do not lean on the top of the Chromebook when it is closed.
- Do not place anything near the Chromebook that could put pressure on the screen.
- Keep all objects (pens, pencils, etc.) off of the screen.
- Do not place anything on the keyboard before closing the lid.

- Clean the screen with a soft, dry microfiber cloth.
- **Do not use Windex or other harsh chemicals to clean the screen.**

## 5. T-Mobile Internet Device

- Students will receive 2GB of data daily. Unused data will not rollover.
- T-Mobile device will filter the internet so that the device will always remain CIPA compliant.
- Students should **not** use t-Mobile Internet Device at school.
- T-Mobile devices should be left at home. If a student does need to carry the device to use after school it should remain in their backpack turned **off**.

## 6. Phones and other Computer Devices

- Phones and other Computer Devices may be used between classes and lunch
- Phones in classroom should only be used when the teacher gives an assignment
- Phones can not be used in place of Chromebook

## 7. USING YOUR CHROMEBOOK AT SCHOOL

Chromebooks are intended to be used at school each day. In addition to teacher expectations for Chromebook use, school messages, announcements, calendars, and schedules will be accessed using the Chromebook. Students are responsible for bringing their charged Chromebook to all classes.

### *7a. Chromebooks Left at Home*

If students leave their Chromebook at home, they will face disciplinary action. Repeat violations of this policy will result in loss of take home privileges, as well as possible disciplinary actions that align with district policies for coming to class unprepared.

### *7b. Chromebooks Undergoing Repair*

Loaner Chromebooks will be issued by the campus technician when they leave their Chromebooks for repair. These Chromebooks will need to be turned into the school campus technician at the end of the school day until the student pays the associated fee with having their device repaired.

### *7c. Charging the Chromebook*

Chromebooks must be brought to school each day **fully charged**. Students need to charge their Chromebooks each evening. Failure to bring Chromebook charged each day can result in loss of take home privileges, as well as possible disciplinary actions that align with district policies for coming to class unprepared.

1:1 Technology Program Handbook  
for Students and Parents

**Tips for conserving battery life:**

- **Chromebooks boot up in less than 8 seconds. It is a good idea to power the device completely off when not in use to conserve battery life.**
- **It is recommended that students keep screen brightness at 60-80% to conserve battery life while in use.**
- **Turn off Bluetooth**

*7d. Screensavers and Backgrounds*

Inappropriate media may not be used as a screensaver or background on your Chromebook. Presence of weapons, pornographic materials, inappropriate language, alcohol, drugs, R-rated, or gang-related symbols or pictures will result in disciplinary actions.

*7e. Sound*

Sound must be muted at all times at school unless permission is obtained from the teacher for instructional purposes. **It is recommended, and some teachers may require, that students provide earbuds to use with their devices in class.**

**8. USING YOUR CHROMEBOOK AT HOME**

Chromebook use will be filtered and monitored both on and off campus using a district-owned management software. That being said, it is recommended that parents/guardians set limits for their student's use of the device while at home and monitor use. Extra care should be taken at home not to leave the device or any accessories within reach of pets, siblings, or other family members who should not have access to the device and could damage it.

Internet connection at home will be beneficial to students. The Chromebooks will have many uses at home without Internet access, but the student's ability to get full benefit from their assigned Chromebook will be much greater if they have Internet access.

***Resources for wireless Internet access in the home:***

- T-Mobile (1-800-937-8997)
- [www.timewarnercable.com](http://www.timewarnercable.com) (1-800-892-4357)
- [www.everyoneon.org](http://www.everyoneon.org) (discounted or free Internet for students)
- [www.att.com](http://www.att.com) (1-800-331-0500)

**9. MANAGING FILES AND SAVING WORK**

Students should use Google Drive, an external hard drive, or a USB thumb drive to backup their work. It is the student's responsibility to ensure that work is not lost due to mechanical failure or accidental deletion. Computer malfunctions are not an acceptable excuse for not submitting work.

*\*\*Recommended: Beaumont ISD provides unlimited Cloud storage to every student in Google Drive.*

## 10. INSPECTION

Students may be selected at random to provide their Chromebook for inspection to check for restricted images, damages, etc. Also, anytime the student is logged into a Chromebook, Technology staff and administration will have the ability to view the browsing history of all Chromebooks, to capture images from them, and to freeze or take over control of the Chromebook if they are being used in a manner contrary to school policy, the Chromebook Acceptable Use Agreement, or the Beaumont ISD Acceptable Use Policy. This will only be used to ensure that Chromebooks are being used for appropriate educational purposes and that students are staying on task.

## 11. PROTECTING AND STORING YOUR CHROMEBOOK

### *11a. Chromebook Identification*

Chromebooks will be labeled in the manner specified by the school. Labels are **NOT** to be intentionally removed from the Chromebooks. Chromebooks can be identified in the following ways:

- Record of serial number
- Individual user account name and password

### *11b. Password Protection*

Students are expected to keep their password confidential. Remember that if someone logs into your computer and breaks the Beaumont ISD Acceptable Use Policy, you are still responsible for all inappropriate items found on your Chromebook. **It is in your best interest to keep both your device and your password secure.**

### *11c. Storing Your Chromebook*

When students are not using Chromebooks, they should be stored in a locked room or locker. Students should take the Chromebooks home every night and charge them. Chromebooks should never be left in a vehicle (locked or not) anywhere. They are an attractive target for thieves.

### *11d. Chromebook Left in Unsupervised Area*

Under no circumstances should Chromebooks be left in unsupervised areas. Unsupervised areas include the school grounds and campus, computer labs, hallways, locker rooms (not locked up), technician, unlocked classrooms, and gyms. Any Chromebook left in these areas is in danger of being lost or stolen. Unsupervised Chromebooks will be confiscated by staff and taken to the campus principal or the Technology Department. **If a Chromebook is found unsupervised, there will be a \$5 fee to reclaim it.** Disciplinary action may also be taken for leaving your Chromebook in an unsupervised location.

## 12. REPAIRING OR REPLACING YOUR CHROMEBOOK

### *12a. Accidental Damage*

If accidental damage occurs, the Chromebook needs to be brought to the campus technician as soon as possible. The first time repair is needed on a device it will cost the student \$30. However, any subsequent repairs that may be needed will require the student to pay the actual cost of repair or replacement. A loaner device may be given to the student until the fee is paid, but it must be turned in to the campus technician at the end of each day.

### *12b. Claims*

**If a Chromebook is lost or stolen, a police report must be completed and a copy of the report must be turned in to the school. Lost or Stolen will cost the student the full price of the device.**

## 13. CHROMEBOOK TECHNICAL SUPPORT

The Technology Department coordinates the repair work for Chromebooks. Services provided include the following:

- Hardware maintenance and repairs
- Password identification
- User account support
- Operating system or software configuration support
- Application information
- Re-imaging device
- Updates and software installations
- Coordination of warranty repairs

## 14. LIST OF REQUIRED AND POSSIBLE FEES

### *14a. Fees*

- Device usage fee – \$30; (\$15 for 2019-2020 school year)
- Replacement for loss, theft, or unrepairable device – \$240
- To reclaim a Chromebook left unattended – \$5
- Device repair for **accidental damage** – \$30
- Removal of Asset Tag - \$5

*14b. Estimation of Repair Costs for accidental damage. (dependent on actual cost of parts at time of damage)*

- Replacing a broken screen – \$30

- Replacing a broken keyboard – \$25
- Lost, damaged, or destroyed power adapter – \$40
- Lost, damaged, or destroyed hard case – \$25

### **15. Wireless Network**

Beaumont ISD is pleased and proud to offer our students access to a Chromebook. Use of the Beaumont ISD wireless network will provide Beaumont ISD campuses access to numerous software programs and the Internet for educational purposes. Beaumont ISD believes that teaching using 21<sup>st</sup> century tools will improve the educational opportunities for our students.

### **16. Responsibilities of Stakeholders:**

#### **General use of the Chromebooks and the Beaumont ISD Network System**

Beaumont ISD fully expects that all members of the school community will use the computer systems in a responsible, appropriate, and legal manner.

**Use the following regulations as a guide when working within our computers or computer systems:**

#### **Using the Chromebook for Internet and Email**

- Beaumont ISD will filter Internet access while on a Beaumont ISD-owned device. Any attempt to disable that filter will result in disciplinary consequences.
- Students and parents/guardians understand the Beaumont ISD does not have control over the information found on the Internet. While every attempt is made to block access from inappropriate material while the student is on Beaumont ISD-owned devices, it is the parent/guardian's responsibility to supervise the information that a student is accessing from the Internet while at home.
- Students should be aware that Internet access and email, and other media that are accessed, created or stored on their Chromebooks, are the sole property of the district. The district has the right to review those items for appropriateness, and to limit or revoke a student's access to them at any time and for any reason.

### **17. Consequences of Inappropriate Use**

- **The use of any district technology is a privilege and not a right. Students are expected to use their Chromebooks in accordance with these policies and procedures, the Beaumont ISD Acceptable Use Policy, and any applicable laws. Failure to use this Chromebook in an appropriate manner will result in disciplinary consequences as determined by the staff and administration of Beaumont ISD.**

**Students who leave the district and fail to check in their Chromebooks and any related equipment will have theft charges filed against them immediately upon the district's knowledge of such an event. The district will prosecute the occurrence to the fullest extent of the law.**

#### **Manufacturer Warranty**

**Dell Warranty:** This coverage is part of the purchase price of the equipment. **Dell warrants the Chromebooks from defects in materials and workmanship.** This limited warranty covers normal use,

mechanical breakdowns, or faulty construction and will provide replacement parts necessary to repair the Chromebook or Chromebook replacement. The Dell warranty does not warrant against damage caused by misuse, abuse, accidents, or computer viruses.

## **Student Acceptable Use Policy for Computer/Network/Internet**

The district network is a primary source for voice, video, and data transmission, communication, storage, and application delivery. The Internet is a primary source for research, information and communication. Access to the district network and Internet is provided to system users students, and community members in order to take advantage of innovative instruction methodology and workplace technological advancements. Along with this privilege come responsibilities. System users are expected to behave appropriately with the use of technology resources. Any system user found in violation of this agreement can be subjected to disciplinary action up to and including termination of employment and/or legal prosecution.

BISD reserves the right to monitor and audit electronic devices on a periodic basis to ensure compliance with this agreement and all associated policies.

All use of the Internet and District issued equipment and devices must comply with the Board Policy CQ (Legal), CQ (Local), and the BISD District Student Handbook and District Code of Conduct relating to use of District computer and internet resources as well as other electronic media.

### *0.1 Mandatory Review*

To educate students on proper computer/network/Internet use and conduct, system users are required to review this policy. The parent or legal guardian of a student user in grades PreK-5 is required to acknowledge receipt and understanding of the District's Acceptable Use Policy as part of their review of the Student Code of Conduct/Handbook

### *0.2 Network Use*

- Do not share passwords. The district may require passwords to be changed on a regular basis.
- Do not make your password available to others.
- Students may not distribute personal contact information about themselves or others by means of the electronic communication system, other than a district e-mail address
- Do not login using an unauthorized account, another users account, or allow students to access an employee's account.
- Do not view, modify, move, copy or delete folders or files unless given permission by the owner or authorized district personnel.
- All work/intellectual capital created using district systems remains the property of BISD.
- The network systems may not be used for illegal purposes, in support of illegal activities, harassment, or for any other activity prohibited by district policy or local/state/federal laws.
- Use for commercial, income-generating or "for profit" activities, product advertisement, or political lobbying is prohibited.
- Users may not send or post messages that are abusive, obscene, sexually oriented, threatening, harassing, damaging to another's reputation, or illegal.

### *0.3 Internet Use*

- Use of the Internet by students must be supervised.
- The Internet should be used primarily for educational/district related purposes. All activity on the Internet is being recorded and can be monitored.
- Do not download files, run programs or install applications without consent from appropriate administrative staff.
- Follow [Copyright laws and Fair Use guidelines](#).
- When uploading files or posting websites, follow the district Web Publishing Procedures and Guidelines.
- If you access an inappropriate website, or observe others doing so, immediately notify appropriate administrative staff.
- Users may not purposefully access materials that are abusive, obscene, sexually oriented, threatening, harassing, damaging to another's reputation, or illegal.
- Work created using District systems remains the property of BISD.

Limited personal use shall be permitted if the use:

- Imposes no tangible cost to the District;
- Does not unduly burden the District's computer or network resources;
- Has no adverse effect on a student's academic performance; and/or is not used in any way for personal gain.

Sites accessible via the computer/network/Internet may contain material that is illegal, defamatory, inaccurate or controversial. Each District computer with Internet access has filtering software that blocks access to visual depictions that are obscene, pornographic, inappropriate for students, or harmful to minors, as defined by the federal [Children's Internet Protection Act](#). The District makes every effort to limit access to objectionable material; however, controlling all such materials on the computer/network/Internet is impossible, even with filtering in place. With global access to computers and people, a risk exists that students may access material that may not be of educational value in the school setting.

The Internet may be accessed by a student unless the student's parent or guardian has filed a written request with the building principal. This request, indicating that the Internet should not be accessed, must be filed annually with the building principal.

### *0.4 Family Educational Rights and Privacy Act*

Users of Beaumont ISD electronic resources and networks recognize that they are bound to comply with the Family Educational Rights and Privacy Act ("[FERPA](#)") in their handling of educational records of students enrolled in BISD. It is also understood and recognized that employees, unless required by judicial or regulatory authority, shall not be permitted to authorize and further disclose the educational records of the other party to persons or entities without first having received permission.

### *0.5 Use of Social Networking/Digital Tools*

Students may participate in District-approved social media learning environments related to curricular projects or school activities and use digital tools, such as, but not limited to, mobile devices, blogs, discussion forums, RSS feeds, podcasts, wikis, and on-line meeting sessions.

The use of blogs, wikis, podcasts, and other digital tools are considered an extension of the classroom. Verbal or written language that is considered inappropriate in the classroom is also inappropriate in all uses of blogs, wikis, podcasts, and other district-approved digital tools. Teachers who use digital learning tools in their classrooms will monitor student actions to ensure compliance

with the Student Code of Conduct/Handbook.

#### *0.6 DISCLAIMER*

These guidelines apply to all district owned devices as well as any electronic device connected to the Network/Internet. The district makes no warranties of any kind, whether expressed or implied, for the services it is providing and is not responsible for any damages suffered by users. This includes loss of data or software resulting from re-imaging, repair process, delays, non-deliveries, miss-deliveries, or service interruptions caused by negligence or user errors or omissions. District resources will not be used to recover software/apps/files installed by system users.

In the process of protecting the network, BISD cannot guarantee the confidentiality of information. The district is not responsible for phone/credit card bills or any other charges incurred by users. Use of any information obtained via the Network/Internet is at the user's own risk. The district specifically denies any responsibility for the accuracy or quality of information obtained through its services. Opinions, advice, services, and all other information expressed by system users, information providers, service providers, or other third party individuals in the system are those of the providers and not the District. The district will cooperate fully with local, state, or federal officials in any investigation concerning or relating to misuse of the district's network/internet/electronic communications systems.

### *Terms of Device Use:*

Device: Dell Chromebook 3100 and Power Charger, Case, and Mobile Device

Replacement Cost: Device \$240

Replacement Cost: Charger \$40

Serial Number: \_\_\_\_\_ (device) \_\_\_\_\_ (asset tag)

Per my signature below, I agree to the terms stated above in this Student Device Loan Agreement.

Parent Signature: \_\_\_\_\_ Date: \_\_\_\_\_

Student Signature: \_\_\_\_\_ Date: \_\_\_\_\_

**Condition:** Student/parent or guardian acknowledges the device is being provided in good working condition and that student is responsible for the care and use of the device. Student and parent/guardian were provided the opportunity to inspect the device and noted any defects (list defects below):

---

---

## Beaumont ISD CHROMEBOOK LOAN AGREEMENT

**Loan Period: Date - Date** Issue Date till May 18, 2020 or withdrawal day. *Students are required to return the device at any time upon request from Beaumont ISD.* Students are required to return the device at any time upon request from Beaumont ISD.

**Damage/Replacement Cost:** The device described above is the sole property of Beaumont ISD. The student named above may use the device for educational purposes only and must return the device in the condition received immediately (not later than three business days) upon the request of Beaumont ISD or the parent/guardian of the student will be held responsible for the replacement cost of all items that are not timely returned in the condition received. Student and parent/guardian's signature below acknowledges their responsibility to protect and safeguard the devices issued and responsibility to pay the replacement cost if the devices are damaged or not timely returned to Beaumont ISD.

Identification and inventory labels/tags have been placed on the device. Students shall not remove or modify the labels or tags. If a label or tag is damaged or missing the student must notify the Information Services Department, 409-617-5079. Students shall not place stickers, labels, tags, or markings on the device.

**All students who lose, including theft, or damage the device and or charger may be placed on the district's hold list until the device and or charger fee is paid.**

**Device cost \$240      Charger cost \$40      Case \$25**

**Privacy:** Students shall have no expectation of privacy with respect to the device provided by Beaumont ISD or any materials contained in the device. Beaumont ISD may inspect the device and review materials on the device at any time without notice.

**Acceptable Use Policy:** By their signature below, student and parent/guardian acknowledge receipt and agreement to Beaumont ISD's Acceptable Use Policy. Student may use the device for academic purposes only in accordance with the District's policies, the District's Code of Conduct, as well as, local, state, and federal laws. Student may not install or use any software other than software owned or approved by Beaumont ISD and identified below: \_\_\_\_\_

---

**Users:** One user account with specific privileges and capabilities has been set up on the device for the exclusive use of the student to which the device has been assigned. Student agrees to make no attempt to change or allow others to change the privileges and capabilities of this user account. Student agrees to make no attempt to add, delete, access, or modify other user accounts on the device.

**Violations:** Students who violate any of the provisions of this device loan agreement or any other school rules or policies applicable to the use of the device will be subject to disciplinary action in accordance with the Student Code of Conduct.

**Report Lost or Damaged Device:** Student and parent/guardian must report lost, stolen, or damaged devices to Beaumont ISD immediately, and not more than 3 days from the date the device is lost, stolen, or damaged. Notice should be provided to the following:

**All students who lose, including theft, or damage the device and or charger may be placed on the district's hold list until the device and or charger fee is paid.**

**Device cost \$240      Charger cost \$40      Case \$25**
