ABOUT

Who are we? A conference organized by local teachers and administrators. We invite vendors and presenters from the CAST conference to present for our area since there are many teachers that are unable to attend each year.

What are we? Science teachers who want to spread knowledge, strategies, and techniques about our field and network with other teachers so that our students can receive the best instruction available.

Where will we be this year? Every year we are hosted at a different school. This year we are being hosted at Port Neches-Groves High School. The address is:
1401 Merriman Street
Port Neches, TX 77651

Click on the Map below to get directions from your location.

When will the fabulous day of training begin? Saturday, February 22, 2020. Registration is from 7:30 - 8:30. If you have not pre-registered, on site registration is available for \$40. This includes the conference and your lunch.
